Subject: Access Agreement to Install Three Groundwater Monitoring Wells at  
4389 Sonoma Highway, Santa Rosa, California.

Ms. Parker:

At the request of Exxon Mobil Corporation (Exxon Mobil), Environmental Resolutions, Inc. (ERI) is requesting authorization to enter onto your property at 4389 Sonoma Highway, Santa Rosa, California, to install three groundwater monitoring wells (MW9A, MW9B, and MW9C) in association with ongoing environmental assessment activities at Former Exxon Service Station 7-3035, 4501 Sonoma Highway, Santa Rosa, California. This work is being performed in response to a directive from the California Regional Water Quality Control Board, North Coast Region (Regional Board).

ERI anticipates the installation of groundwater monitoring wells MW9A, MW9B, and MW9C will be completed in three days. The proposed well locations are shown on the attached map; however, the final placement of the wells may be altered to avoid conflicts with existing underground utilities. The wells will be installed in separate borings and will be set in 12-inch round well boxes with traffic-rated lids to protect them from traffic and surface water infiltration. Soil and water generated during these investigation activities will be stored at the former Exxon site pending characterization and disposal.

This access agreement will remain in effect to allow periodic monitoring and sampling of the wells for the duration of time necessary for Exxon Mobil to obtain case closure from the Regional Board for the investigation associated with the former Exxon site. When Exxon Mobil has obtained case closure from the Regional Board, the wells will be properly destroyed in accordance with the County of Sonoma Environmental Health Division (the County) regulations.

Copies of ERI's Workers' Compensation, General Liability Insurance, and Contractors License are attached. Please sign below if this agreement is acceptable and return one original to ERI. ERI and Exxon Mobil greatly appreciate your cooperation in this matter. ERI will coordinate the date and time of the field work with you or your designated representative.

August 3, 2005

Please contact Ms. Paula Sime, ERI's project manager for this site, at (707) 766-2026 with any questions regarding the work.

Sincerely,  
Environmental Resolutions, Inc.
